## Lions Aqua Gala Well Attended Sunday Evening

Some 500 Vulcan and district citizens witnessed the Vulcan Club first Aqua Gala water show here Sunday evening, at the Memorial Swimming Pool. Members of the Innisfail Lions Club assisted the occasion by being present with some fine swimmers from their town, accompanied by Ken McKenna, who aided the local club greatly. Calgary, Brooks and Strathmore swimmers were also in attendance and added much to the program. W. Ritson-Bennett, director of the Provincial Water Safety Program, who conducted classes here last year and to whom much credit goes for turning out many fine swimmers throughout Alberta took an active part in the event.

Prizes in the different events were won by:

Jr. Boys' Crawl—25 yds. 1st. Melford Parkins; 2nd. Allen Cook; both of Innisfail and 3rd. Mervin Brooks; Vulcan.

Jr. Girls' Crawl—25 yds. 1st. Marjorie Thompson; 2nd. Rosalie Parkins; both of Innisfail.

Men's Dinghy Race—Donald Mitchell team, Vulcan.

Boys' Tadpole Race—1st. David McIntyre; 2nd. Brian McIntyre; Burnia, Alta. 3rd. David Saxby; Vulcan.

Girls' Tadpole Race—Cleo Robinson, Vulcan; 2nd Penny Deans, Innisfail.

Sr. Boys' Crawl—50 yds. Doug Ingraham, Brooks; 2nd. Fred Hilderman, Calgary; 3rd. David Mitchell, Vulcan.

Jr. Boys' Novelty Race, 25 yds.—1st. Olen Cook; 2nd. Melford Parkins; Dave Marchand all of Innisfail.

Jr. Girls' Crawl, 25 yds.—Sheila McGee, Innisfail. (70.2); 2nd. Sharon Buehler, Vulcan; 3rd. Janice Stratton, Brooks.

Sr. Boys' Novelty Race, 50 yds.—1st. Dave Ingraham, Brooks; Donald Mitchell, Vulcan; Ray Parkins, Innisfail.

Sr. Girls' Crawl, 50 yds.—1st. Lynne Hayworth, Medicine Hat; 2nd. Rosalie Parkins, Innisfail; 3rd. Marjorie Thompson, Innisfail.

Jr. Girls' Novelty Race, 25 yds.—1st. Sheila McGee, Innisfail; 2nd. Janice Stratton Brooks; 3rd. Sharon Buehler, Vulcan.

Sr. Boys' Back Stroke 50 yds.—Doug Ingraham, Brooks; Melford Parkins, Innisfail; 3rd. Gordon Mundell, Vulcan.

Jr. Boys' Side Stroke, 25 yds.—Melford Parkins; 2nd. Dave Marchand, 3rd Mervin Brooks.

Jr. Girls' Side Stroke, 25 yds.—Sheila McGee; 2nd. Sharon Buehler; 3rd. Janice Stratton.

Sr. Boys' Side Stroke—1st. Doug Ingraham, Brooks; 2nd. Dale French, Vulcan; 3rd. Gordon Fox, Innisfail.

Sr. Girls' Side Stroke 50 yds.—Lynne Hayworth, Medicine Hat; (44.5); 2nd. Rosalie Parkins, Innisfail; 3rd. Marjorie Thompson, Innisfail.

Mens' Composite Race to determine the winner of the Ritson-Bennett Trophy, donated by W. Ritson-Bennett, to encourage the young men to become proficient swimmers. This award will be competed for annually and was won this year for the first time by Dale French, Vulcan, with Melford Parkins, Innisfail coming in second.

The cups donated by Merv McIntyre and Arnold Lloyd for the best all-round swimmers, in each of the four main classes went to: Girls' Sr. 1st. Lynne Hayworth.

## John Martin Dies at Kelowna

John Kesner Martin, aged 68 years, passed away in hospital at Kelowna, B.C. on Monday, August 1st.

Born at Moscow, Idaho, he came to Champion, Alberta in 1913 later moving to the Mossleigh district where he lived until retiring three years ago when he moved to Kelowna. Mr. Martin was well and favourably known in this district.

He is survived by his wife, Ethel; six daughters, Mrs. Rose Stein, Vulcan; Mrs. Vivian Larson, Vancouver; Mrs. Vera Stewart, Mossleigh; Mrs. Marjorie Middleton, Welma and Reta, Kelowna; three sons, Ken and Linden, Kimberly and Stan of Lethbridge; three sisters all living at Washington, U.S.A.

Services were held by Rev. E. E. Baskier conducted at Day's Funeral Chapel Kelowna, on August 4th and interment was made in Kelowna cemetery.

## The Editor Takes A Holiday

With a broad grin and accompanied by Mrs. Munro, the Editor, with a "Take care of yourselves" left on a well earned holiday Saturday morning last.

We, (the staff) asked them just where they intended going. Bob, replied, "Well ---" that as far as he got when the better-half said, "He thinks he's going fishing but I have other ideas" --- anyway we wished them the best of everything for their trip, but we still have a hunch that packed or hidden amongst the many things one generally takes on a trip of this nature, there is a fly rod, hip rubber boots, bait, etc., just where it can be grabbed at a moments notice. Anyway we wish them a real nice holiday and during their absence we hope to have the "Advocate" in your mail box as near the regular time as possible.

Medicine Hat; Jr. Girls, Sheila McGee, Innisfail; Boys' Sr. Doug Ingraham, Brooks; Boys Jr. Melford Parkins, Innisfail.

Other features which added greatly to the enjoyment of the spectators and provided variety in the program was a demonstration of Basic Life Saving technique and Inhalator Drill staged by the members of the Vulcan Swimming Club. The Ballet Swimming numbers by members of the Calgary group, which were very beautiful and called forth considerable admiration, as did other specialty numbers by the same artists. A Paddle Board demonstration on Life Saving was shown by Mr. Ritson-Bennett and showed the speed with which this type of rescue can be accomplished.

Keith, Elder and Wayne Gray, both of Vulcan, as a comic team provided many laughs and demonstrated considerable ease in swimming in full garb. The Bag Escape trick, in which Dale French, local swimming instructor, was tied in a large canvas mail sack, and thrown into the water from which he emerged unaided was cleverly enacted.

Some very fine diving numbers were executed by the Innisfail Club, with Ken McKenna of the same Club performing some most difficult fetes. Miss Lynne Hayworth of Medicine Hat also provided the audience with a demonstration of fine diving.

Flood lights of many colors added to the attractiveness of the evening's performance. Much credit goes to Lions Merv McIntyre and R. J. Buehler for the success of this venture, which it is hoped will become an annual affair.

An invitation was extended to all present to attend the Innisfail Swim Meet to be held this coming Wednesday evening.

## Martha Harwick, Lomond, Passes

Martha Harwick, widow of the late Andrew Harwick, passed away at her home in Lomond on Saturday, August 6th following an illness of nine month duration.

Born in Kincardin Ont., she married Andrew Harwick at that town in 1903 where they made their home until 1909. They came west in 1910 to Claresholm later moving to the Lomond district where they homesteaded. Mr. Harwick predeceased her in 1916.

Surviving are three daughters, Mrs. T. Jennings of Monarch, Mrs. E. Armstrong and Mrs. A. Fitzpatrick of Lomond; one son, Howard, of Lomond and a sister living in Winnipeg.

Funeral Services were held in the Lomond Hall on Monday, August 8th, at 2:00 p.m. and interment was made in Vulcan cemetery.

## BERRYWATER

On Saturday afternoon Mrs. Doug Smith was hostess to a number of friends in honor of the birthday of Mrs. Alan Smith. A most pleasant social afternoon was enjoyed and the guest of honor was presented with a gift from those assembled, and best wishes were extended to her.

## Italian Children Aided by U.N.

A young street musician plays to a cafe on a Naples piazza, while his crippled "partner" collects the money. Sights such as this one are common in postwar Italy, where lack of proper food and treatment is turning many youngsters into professional beggars. To counteract this situation, the United Nations International Children's Emergency Fund (UNICEF) is now providing meals, clothing and medicine to almost 1,000,000 children and expectant mothers. UNICEF is also inoculating millions of Italians against tuberculosis.

## 40 Highway Projects Now Under Way In Alberta

More than 40 highway projects are being carried on in different parts of Alberta by the provincial public works department, according to information received by the Alberta Motor Association.

Contracts have been awarded in many sections of the province for grading, gravelling and bituminous surfacing. With fine weather conditions prevailing for the most part, it is expected that the entire program proposed for this year will be completed.

Officials have stated that providing adequate equipment is available and weather conditions are suitable the whole program should be finished during the late fall.

Recently, highway contracts totalling \$35,000 were announced. The list includes \$314,000 for bituminous surfacing of 15 miles of road between Lloydminster and Kitscoty.

Another project is the gravel surfacing of 28 miles of highway between Wetaskiwin and Pigeon Lake. This is estimated to cost \$21,517.

The department has awarded a contract for gravel surfacing of the highway from High River east.

## HOW WEEDS WINTER OVER

It is well that a farmer should know the different kinds of weeds in order to be able to combat them. When growth is checked in the fall of the year, the interesting question arises as to what becomes of the various weeds at that time. What provision is made for the survival and renewal the following year? This should be known so that suitable opportunity may be taken to attack and exterminate them, says Geo. A. Elliott, Seed Laboratory Services, Dominion Department of Agriculture, Ottawa.

Weeds are commonly classified as annuals, biennials and perennials. Annual weeds are those that germinate in spring or early summer, grow and reproduce before winter, dying naturally or when caught by autumn frosts, and leaving its progeny tucked away within seed coats capable of withstanding winter's adversities. For the annual, therefore, it is the seed that holds the strategic position, and its importance is well attested by the abundance of its seed as compared with other weeds. For most annuals, any practice which will hasten spring germination is all to the good. Most annuals are thus started before any crop is in the way of their restoration. Winter annuals are able to survive the winter as seedlings. They are soon too sturdy to be easily uprooted and some are in bloom by the time other vegetation is starting. Winter annuals include such weeds as shepherd's purse, stinkweed, tumbling mustard, false flax, and chess.

Perennial weeds, while also pro-

## Blood Donor Clinic Here on August 23rd.

A blood donor clinic will be held in the Legion Hall, Vulcan, on Tuesday, August 23rd, from 7 to 9 o'clock p.m. Over 475 Red Cross cards have been mailed to Vulcan people with a self addressed return card attached and everyone eligible is requested to fill in their name and address and mail them to your local Red Cross branch.

The Red Cross committee in charge of the clinic are Mrs. C. J. Robinson, Mrs. J. B. Marshall and Mrs. Chester Rea and they are looking forward to a good response. Vulcan has always been to the fore as blood donors and the benefit derived by the local hospital and patients alike is worth the effort.

This is your opportunity to help save a life. Send in that card today.

## Wedding

### Marshall—Woodhurst

Soft candle light bringing out the blue of the hydrangias which decorated the church and formed the setting for the marriage of Gwendoline Agnes, daughter of Mr. and Mrs. R. W. Woodhurst, 147 West Eighteenth Street, North Vancouver, B.C. and Mr. Chester Bernard Marshall, son of Mr. and Mrs. Joe Marshall, Vulcan, Alta. The wedding took place at eight o'clock on the evening of July 26, in Peoples' Fellowship Tabernacle, Kingsway and Victoria Drive, Vancouver, Rev. Buch officiating.

Given in marriage by her father the bride was wearing an exquisite gown of white satin and train, with very full skirt, caught up at the sides with white satin gardenias, revealing the lace inserts, at the hem. The basque bodice featured a lace yoke and long lily point sleeves. Her pearl necklace was a gift of the groom. The long embroidered net veil was held in place by white carnations and silver ribbon woven into a tiara effect. She carried a crescent bouquet of talismans roses, white carnations and bouvardia.

There is a lot of talk going around regarding the merits of the two teams, each outfit are confident that it will be a walkover for them, but according to baseball experts it's a toss-up. At any rate a lot of fun is expected and you are advised to be on hand to witness these games.

## New Wheat Delivered Here On August 10th.

The first load of 1949 wheat was delivered by G. V. Atkinson to the United Grain Growers here on Wednesday, August 10th. The grain weighed 63 lbs. to the bushel and graded No. 1 Alberta Red Winter.

Crops in the district are coming in fast owing to the excessive heat of last week and the first of this week. Some swathing is being done and it is expected that harvest will be general next week.

So far the Vulcan district has escaped any serious hail damage although several of the outlying districts have been hit hard.

Mr. Ernest Scott was best-man and ushers were Mr. Leonard Woodhurst and Mr. Allan Anderson.

The soloist was Mr. R. Neufeld. The ceremony was followed by a reception in the Masonic hall, twenty-seventh street and Victoria drive where the guests were received by Mrs. Woodhurst in beige figured crepe with hat in tones of beige and brown. Assisting her was Mrs. Marshall in a navy ensemble. Both wore corsage spray of pink carnations.

For the honeymoon trip to Washington, U.S.A. and the Okanagan Valley, B.C., the bride donned a dark brown suit with oatmeal-toned top coat and Kelly green accessories, her hat was of brown and white and she wore a corsage of gardenias. Mr. and Mrs. Marshall will reside near Revelstoke, B. C.

## C.P.A. STARTS AUSTRALIAN SERVICE

The traditional Hawaiian "aloha" greets passengers at Honolulu on Canadian Pacific Air Lines' new Express route to Australia. In lower picture above, the Empress of Sydney rests in front of the Aloha control tower at Honolulu Airport during 30-hour stop which gives passengers an opportunity for rest and sightseeing in beautiful Hawaii. The idea of the C.P.A. Australian service is to travel by day and sleep by night on the 8,000-mile route, and other pictures above show how this is done. Upper left, Stewardess Pamela Hookham of Sydney, Australia and Helen McCracken of Vancouver, pause in their sight-seeing during overnight stop at Fiji

to chat with a native at Nadi Airport. Centre left some 20,000 feet above the broad Pacific, passengers enjoy full course meal, with W. J. Turnbull, Canada's Deputy Postmaster General, choosing a fillet mignon, while Grant McConachie president of C.P.A., looks on. Seated across the table from them are Senator Gray Turgeon, Vancouver, and Air Vice-Marshal A. T. N. Cowley, Director of Air Services, Department of Transport. Upper right, passengers on the first flight are entertained by R. R. E. Dale, Acting Canadian Trade Commissioner, Sydney and Mrs. Dale. Shown with Mr. and Mrs. Dale in this picture are Mr. McConachie (left) and Senator James A. MacKinnon (seated), former Canadian Minister of Trade and Commerce.

**SUMMER FALLOW TO HALT CUTWORM**

Increases in cutworm infestation is predicted for 1950.

Summer fallow operations for the remainder of this season should be planned to prevent cutworm infestations. To accomplish this all weed growth should be destroyed late in July and the

fields then left undisturbed throughout August and the first half of September, when the moths are laying eggs. Cutworm moths will not lay their eggs in fields that are free of weeds and crusted from rains. Disturbance of the crust by allowing livestock to pasture or run the field may be as serious as if the field had been worked.

### WHY WORRY

(The Brooks Bulletin)

People do too much worrying, right now a lot of them are worried about the possibility of another war, over the prospect of a depression, and over a lot of other dreaded things that may never happen.

Worry causes stomach ulcers ruins happy dispositions and life is made miserable. And, only too often, the things worried about never happen.

It was a very miserable negro who said that he had so many things to worry about that if anything else happened to him he wouldn't have time to worry about it for another two weeks.

A giant earthworm which sometimes reaches 11 feet in length and hatching from eggs three inches long, is the subject of study by Australian scientists. It makes a "loud, gurgling noise."

### UNEARTH RELICS OF INDIAN CULTURE

Evidences of two perhaps widely separated generations of Indian culture are believed by Boyd Wettlaufer to have been brought to light by the New Mexico University expedition of which he is in charge near Macleod.

In a letter to the provincial department of economic affairs Mr. Wettlaufer states that excavations of campsites at two levels, one a few inches from the surface and the other at about nine feet, yielded arrowheads of definitely different cultural periods. The material at the lower level, he says, is more heavily patinated and more crudely manufactured than at the higher.

Excavation at the adjacent buffalo jump, according to Mr. Wettlaufer, unearthed cultural material all the way from the surface to the eleven feet level, where digging is now going on.

Considerable laboratory work remains to be done, Mr. Wettlaufer says, before conclusions can be drawn from any of the material brought to the surface.

With less than one per cent of the world's population, Canada has become the third greatest trading nation of the world.

### Master Machine for Modern Farmers

A recent survey showed the owners of self-propelled combines in Western Canada to be divided like this:

61.9% were owners of Massey-Harris

38.1% were owners of other makes

This is a very significant fact. Farmers don't choose their machines by whim or fancy. Such a high preference for Massey-Harris is proof beyond doubt that Massey-Harris combines give them the best all-round performance... in fast harvesting, clean threshing, freedom from field delays, low cost of operation.

If you were to visit the Massey-Harris combine factory and watch the long train-

loads of combines pulling out of the railway siding, you would see something else that is noteworthy. Many of these train-loads are destined for United States points, because Massey-Harris combines are as popular in Kansas, Texas and the Dakotas as they are in the Canadian West.

And if you observed further, you would find many carloads destined for far-away countries like Argentina, India, Turkey, Tanganyika. All over the world, the Massey-Harris self-propelled combine is known and recognized as the master machine for modern farmers. Wherever you find modern agriculture, you find Massey-Harris combines in use and in demand.

### Larsen's Drug Store Champion

The fact that a person can take an intricate prescription to a drug store and have it filled is common knowledge to most people today. We accept it as being so and think nothing more of it. But, did it ever occur to you that the least mistake on the part of the chemist could mean disaster? The modern druggist is your doctor's right hand man; and therefore you must be as careful in your selection of a drug store as you are of a doctor. Why take chances? Don't gamble with sickness and disease. Use the safest means at your disposal. G. L. Larsen's Drug Store in Champion is a graduate pharmacist of the Alberta College of Pharmacy. His technical education and wide experience have fitted him for the scientific filling of all prescriptions regardless of their intricacy. When you take your doctor's prescription to Larsen's Drug Store, you can be assured that you leave with "exactly what the doctor ordered."

Larsen's Drug Store is a modern store, handling a large selection of patent medicines, toiletries, gifts, chinaware, tobaccos, etc.

Whatever the need may be, if a drug store can supply that need, Larsen's in Champion is the one to call.

## COUCH GRASS CONTROL

(Experimental Farms News)  
Failure to recognize couch grass has resulted in many farmer's dilemma. If a strange grass in your field has underground root stalks have it positively identified. It may be couch. The only easy way to eradicate couch is when the first few plants invade your farm. Couch grass, also known as quack, twitch, scutch, quitch, etc. according to district, is one of the most pernicious weeds with which a farmer has to contend. Method of control depends upon the seriousness of the infestation. Isolated plants or small patches a few square feet in area can be readily disposed of by forking and careful removal of the roots while larger patches of up to a square rod

can be economically eradicated by sodium chlorate. The chemical should be applied as soon as the couch is showing head. It may be scattered on dry or sprayed, the former method is equally effective and is less bothersome. Four pounds per square rod is sufficient. Care should be taken to apply the chlorate well beyond the edge of the patch to ensure killing the creeping root stalks. It is not necessary to scythe down the couch before treatment unless there is danger of it ripening seed before it is killed by the chemical. Possibly more effective than applying the four pounds at one time is to apply two pounds when the couch is heading and two pounds in the autumn.

Since a patch of couch grass ten feet square will cost about 50 cents to eradicate by the use of sodium chlorate, and since the soil of the treated area will be rendered sterile for two or three years afterwards, it is obvious that the use of this chemical is limited to spot treatment. For large infestations or for fields heavily patched with couch cultural control must be used. The most effective method found at the Dominion Experimental Station, Beaverlodge, Alta., says A. C. Carder, is surface working by means of the one-way, starting in mid-June, followed by repeated and deeper tilling. In dry seasons heavy reduction to complete eradication, according to soil type, will be obtained. In wet years treatment will have to extend over two seasons. However, unless the field is well supplied with fibre such control results in serious soil washing and blowing. In this instance, seeding the field to brome or other suitable grass and pasturing for two or three years before commencing cultural control is advocated. If livestock is limited the field may be handled in sections.

Much hope is placed on new chemicals such as TCA (Tri-chloro-acetic acid) which may eradicate couch without the heavy expense and sterilization of the soil involved with sodium chlorate. The use of these newer chemicals, however is still in the experimental stage.

Eggs should be packed with the pointed end down because there's an air cell at the rounded end which is more likely to be broken if that end is down.

A towering, talking figure of Paul Bunyan, legendary north woods hero-giant, will be the central theme of the Chicago and North Western Railway exhibit at the Railroad Fair in Chicago this summer. He'll be 23 feet high.
